I think it is ridiculous for you to even consider anything from the NAB. Regular broadcast radio has become ridiculous. I live in Richmond VA area and I believe that every radio station in town is owned by Clear Channel. Where is the diversity? The web sites for these stations are even the same cookie cutter design (I think they all broadcast out of the same building). I think it is disgusting for our air waves to be dominated by a few media conglomerates. It has become so ridiculous that I subscribed to and pay for XM Radio. Thank god for XM radio. They have a full spectrum of ideas (both conservative and liberal radio talk, plus consistent reception everywhere in the country). The conglomerate fat cats are so interested in keeping information from us that they attack the last bastion of freedom to keep a strangle hold on the information. How can anyone own traffic or weather information. What right does anyone have to keep any licensed broadcaster from providing the information that their listeners want? Is all of Congress and the FCC paid flunkies of the NAB and the powerful multinational communication conglomerates that want to control all information. I believe that it is quite possible that the nation has been taken over by fascists while everyone was listening to the tripe put out by the NAB conglomerate owned stations.
